

## **Selling Your Jewelry carefully during Covid-19 Pandemic**

Considering the devastating affect this pandemic is having on our economy, an unfortunate situation may arise where you need to raise cash quickly to cover pending bills and obligations.

Cook County Buyers is considered an essential service in this regard, and I am honored to be here for you during these trying times.

It is now more important than ever to have a way to sell your diamonds, gold, silver and estate jewelry in a safe manner while practicing proper social distancing and sanitation.

**I am taking this situation VERY seriously.** As always, I meet with my clients by appointment only 1 on 1 at my private office in Northbrook.

### **Here are some measures I have taken to ensure the safety of my clients and myself:**

- At our meeting, I will be wearing an N95 mask and rubber gloves. The handles on my office door, handles on chairs, and my desk are wiped down with disincentive wipes before and after each appointment.
- Upon entering my office please place your items on my desk and take a seat which is set back 6 feet from my desk. and I will begin my evaluation process once you have moved back from the desk.
- All jewelry is placed inside a hot ultrasonic cleaner and steam cleaned after to ensure the items are clean for safe handling.
- Hand sanitizer is on my desk, and I will advise you to use it upon arrival, and after receiving cash or check payment.
- You will sign your receipt with a new complimentary Cook County Buyers pen that you may take with you at the conclusion of the appointment.
- If you have a mask of any kind that you can wear over your nose and mouth, please bring it to our meeting.

**At this time, I cannot meet to buy only small amounts of gold or small diamonds. In an effort to keep appointments to a minimum, please text me first with pictures and information to see if an appointment can be scheduled.**
